## Java Compiler Version

The screenshot shows the Kattis user profile for Jillian Oestreicher. At the top, there's a navigation bar with links for PROBLEMS, CONTESTS, RANKLISTS, JOBS (12), and HELP. On the right side of the bar are search, submit, and account information (Score: 1.0, Rank: 16346). Below the bar, Jillian's profile card is displayed, featuring her name, a cat icon, United States flag, Marist College logo, email (jillian.oestreicher1@marist.edu), rank 16346, and score 1.0. A large "Submissions" section follows, with a table header for ID, DATE, PROBLEM, STATUS, CPU, and LANG. At the bottom of the page is a footer with RSS feed and powered-by links.

## Kattis Account

The screenshot shows the GitHub user profile for jilloestreicher. At the top, it displays a search bar, pull requests, issues, and gist links. Below the search bar is a placeholder profile picture and a tip about updating the profile. The main profile area includes sections for Overview (Repositories: 0, Stars: 0, Followers: 0, Following: 0), Popular repositories (empty), and a contribution grid for the last year. The contribution grid shows one dark green square in the January column, indicating activity in that month. There are also links for Edit profile, Add a bio, and Contribution settings.

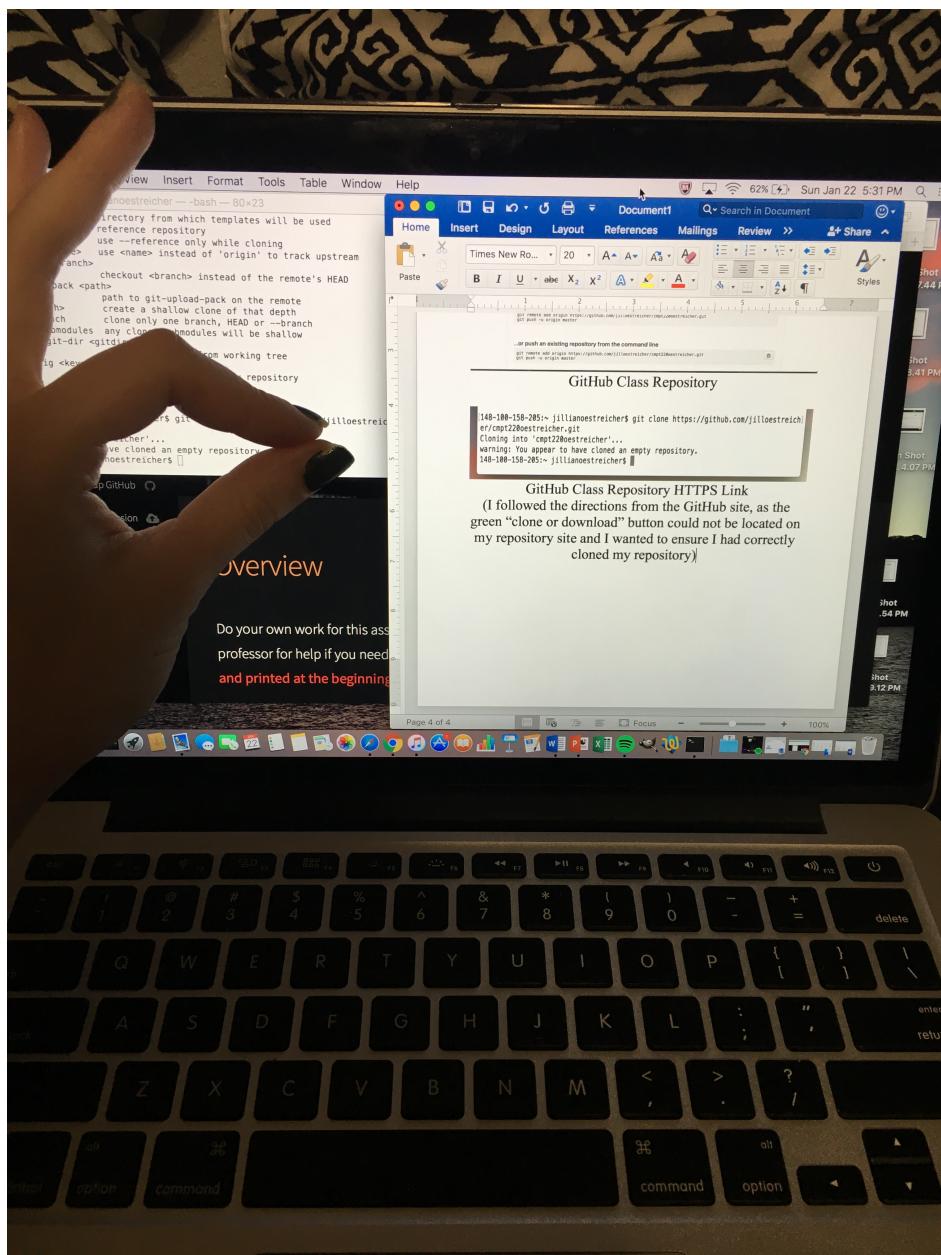

## GitHub Account

The screenshot shows a GitHub repository page. At the top, there's a navigation bar with links for 'Pull requests', 'Issues', and 'Gist'. Below the navigation bar, the repository name 'jilloestreicher / cmpt220oestreicher' is displayed, along with buttons for 'Watch' (0), 'Star' (0), and 'Fork' (0). A horizontal menu bar below the repository name includes 'Code', 'Issues 0', 'Pull requests 0', 'Projects 0', 'Wiki', 'Pulse', 'Graphs', and 'Settings'. The main content area has a light blue header with the text 'Quick setup — if you've done this kind of thing before'. It provides instructions for cloning the repository via 'Set up in Desktop' (with options for 'HTTPS' or 'SSH') or by copying the URL 'https://github.com/jilloestreicher/cmpt220oestreicher.git'. It also recommends including a 'README', 'LICENSE', and '.gitignore'. Below this, there are sections for '...or create a new repository on the command line' and '...or push an existing repository from the command line', each with a code snippet and a copy button.
